Drilling down

- Show data at a high level
- Option to show a more detailed level

Hierarchies

Example 1

Example 2

Drilling down on a visual

Filtering

- Display data based on some selected criteria
- Examples:
 - Filter on one year or one customer
 - Show the top 5 regions
- Types of filters in Power BI:
 - Visual-level filters
 - Page-level filters
 - Report-level filters

Turning off filtering

- Don't allow the end-user of your report to change the filters
- In Power BI: turning off interactions
 - Visual will not change when another field is selected
